

Natunola Health Biosciences Inc.: Corporate Press Release

Natunola – Winner of 2008 Award of Excellence for Innovation

Winchester, ONTARIO--(November 11, 2008)

Natunola Health Biosciences Inc. (TSX-V:NHI) (“Natunola”) is pleased to announce that Natunola is the winner of the 2008 Award of Excellence for Innovation in Agriculture and Agri-Food. The award was presented yesterday at the Royal Agricultural Winter Fair in Toronto by the honourable Guy Lauzon, Member of Parliament for Stormont-Dundas-South Glengarry on behalf of the Honourable Gerry Ritz, Federal Agriculture Minister. This is one of the most prestigious awards within the agricultural and agri-food industry to recognize an individual, organization or business that made an innovative contribution to the agri-food sector.

Under the leadership of its President & CEO, Dr. Nam Fong Han, Natunola built the world’s first dehulling plant for flaxseed to produce flax kernel, flax hull and other flax fractions. “This all Canadian company provides innovative new flax products and provides new opportunities for Canadian flax growers. It is also adding health benefits by offering innovative new products for human food, personal care and animal care markets”, said Dr. Rob McLaughlin, President of the Royal Agricultural Winter Fair and co-host of the awards ceremony.

“It is a great honour and very flattering to receive such a prestigious award from Agriculture and Agri-Food Canada”, said Dr. Nam Fong Han, President & CEO of Natunola. “It means a lot to our company as it adds to our credibility in our dealings with existing and prospective new customers. It tells them Natunola provides award-winning, high quality and innovative flax products. It also tells them that Natunola is serious about our products and that we are a serious player in the food industry”.

In the past few years, Natunola has developed and sold a range of new flax products such as shelled flax kernel and shelled flax meal. These products are shelf stable and do not require grinding or refrigeration. Many retail products are now using the flax ingredients from Natunola. Natunola also has its own brand of retail products under the brand name of Health’s Delight™.

“We are very excited about our innovative flax products and the Award of Excellence. These provide the catalyst for our Company and our team to continue to expand our market share in the healthy food industry”, said Dr. Nam Fong Han.

About the Company:
